

PERPETUAL CARE PROVISIONS - RABBITS

Please take time to think about what would happen to your beloved rabbits if you should become incapacitated or pass away unexpectedly. You would want to make sure that s(he) is protected and well cared for and not homeless. Discuss your wishes with next of kin and leave specific written instructions for the future care of your pets. Set aside funds for costs such as food, veterinary expenses, and other incidentals. Including them in your will/estate plan will not only make it official but will offer you peace of mind. One can't assume that family or friends will step in and automatically provide for them. Many end up at the pound, confused and lonely, and then destroyed. Sadly, this scenario is all too common, but preventable. Don't leave your Mopsy's future to chance.

RABBIT FORM

Information for your caregiver/s:

Date: _____
